A research grant totaling \$4,800 has been awarded to George Washington University by the National Science Foundation to support research entitled "Archaeology of Anaktuvuk Pass" under the direction of John M. Campbell, Assistant Professor of Sociology and Anthropology.

The grant will enable Campbell to complete a monograph on the "Archaeology of Anaktuvuk Pass: Nunamiut Pre-History". The Nunamiuts are Eskimos who have lived in the Anaktuvuk Pass area of northern Alaska for three or four centuries, Professor Campbell said.

George Washington University's eighth annual Air Force Advanced Management class will be honored Friday morning (August 3) at ceremonies in Lisner Auditorium when 21 participating officers receive certificates of completion for the year-long, 50-semester hour program of studies.

Main speaker at the ceremonies, which begin at 11 a.m., will be Dr. Edward L. Katzenbach, Jr., Deputy Assistant Secretary of Defense for Education and Manpower Resources.

The Advanced Management Program is sponsored by the Air Force Institute of Technology and provides 50 semester hours of work in advanced management and supporting fields for a selected group of Air Force officers. It is conducted by George Washington University's School of Government, Business and International Affairs.

Program coordinator is Dr. Waldo Sommers.

Since its inception in 1954, over 300 Air Force officers have participated in the program. Basically the program is one of graduate study, and it normally leads to a master of business administration degree.

Air Force Times, ANAF Journal

FOR IMMEDIATE RELEASE

August 6, 1962

R. D. Woodward, FE 8-0250, ext 354

Twenty-one Air Force officers received certificates for completion of George Washington University's eighth annual Air Force Advanced Management class during ceremonies at Lisner Auditorium last Friday, August 3. The event marked the completion of a year-long, 50-semester hour program of studies for the officers.

The Advanced Management Program is sponsored by the Air Force Institute of Technology and provides 50 semester hours of work in advanced management and supporting fields for a selected group of Air Force officers. It is conducted by George Washington University's School of Government, Business and International Affairs. Program coordinator is Dr. Waldo Sommers.

Speaking at the graduation ceremonies, Dr. Edward L. Katzenbach, Jr., Deputy Assistant Secretary of Defense for Education and Manpower Resources, urged the officers, as managers, "to assign your people, military and civilian alike, to schools only after you yourselves look over the curriculum of the school. Schools are your tools and to see to it that they are good ones is a direct responsibility of each of you."

"I would hope that you would attempt to make education more than a quota filling operation," he said, in discussing "Education AS A Management Tool".

Officers who completed the program were Lieutenant Colonel William S. Miller, Lt Col Donald F. Brazee, Lt Col Melville W. Hightshoe, Jr., Major J. B. Fergerson, Maj Benjamin F. Starr, Jr., Maj Tilton L. Willcox, Maj Robert F. Crossland, Maj Donald S. Floyd, Maj John W. Daniels, Maj C. C. Scott, Maj Robert W. Lally, Maj Thomas F. Blake, Jr., Maj William D. Gilbert, Maj Alfred J. Boyd, Jr., Maj William E. Harris, Captain Charles P. Cecil, Capt Robert P. Johnson, Capt John F. Whitehouse, Capt R. C. Richards, Capt Lewis C. Lemon, and Capt John W. Caple.

FOR RELEASE ON SUNDAY, AUGUST 12, 1962

R. D. Woodward, FE 8-0250, ext 354

Courses of study leading to a liberal arts major in ceramics will be offered for the first time by George Washington University, beginning this fall in cooperation with the Corcoran School of Art, Professor D. C. Kline, chairman of the University art department announced.

Classes for both full and part time students begin September 24, with both day and evening sessions scheduled.

With substantial support from the Meyer Foundation, a new department of ceramics has been established at the Corcoran School to facilitate the program. "It will be one of the finest equipped ceramics departments in the East," said Mr. Richard C. Lafean, director of the new program. Highlighted by one of the largest, most versatile gas kilns used in American schools, the department will also have every major type of potter's wheel, Lafean said.

As in programs in painting, sculpture and commercial art, students in the University ceramics program will attend practical classes at the Corcoran School in addition to the program of liberal arts courses on the University campus. Students who complete the program will be fully-trained to serve as teachers and professional ceramists.

The program of work for the first year will include instruction in basic techniques in clay preparation, wheel throwing and handforming, and techniques in the application of slip glazes, followed by work in mosaic and techniques in the application of vitreous glazes.

-more-

GWU CERAMICS PROGRAM
2-2-2-2-2-2-2-2

The second year will be devoted to techniques in clay and glaze formulation, advanced wheel throwing and handforming, and mosaic. Emphasis will be placed on the problems in ceramic design, current directions of the studio potter and research procedures. The student will gain experience in the creation of individual projects where a choice of techniques will be used in the search of possibilities and limitations of the medium.

The third year of the program will be devoted to advanced glaze calculation and experiments in reduction firing. Individual workshop problems will be given in formulation techniques as well as problems inherent in series production.

Lafean, the program director, lives at 3301 Russell Road in Alexandria, Virginia. An instructor in ceramics for the past seven years, he received his B.F.A. and B. S. in Education from Tyler School of Fine Arts at Temple University. He will be assisted by Mrs. Eleanor Bookout, a former instructor in ceramics with the University of Maryland and the Prince George's County Board of Education.

George Washington University will offer new courses in the History of Science and the History of the Civil War beginning this fall, Dr. Roderic H. Davison, chairman of the history department, announced.

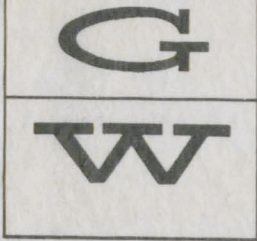

Two new part-time faculty members have been added to the University staff of instruction to teach the new courses.

Dr. Robert P. Multhaupt, Head Curator for the Department of Science and Technology at Smithsonian Institution, has been appointed an Associate Professorial Lecturer in History and will teach the History of Science course.

Dr. James I. Robertson, Executive Director of the United States Civil War Centennial Commission, will teach the course on the History of the Civil War. He was appointed as a Professorial Lecturer in History.

The History of Science course will cover the development of science from the ancient world to the present day. The first semester will be devoted to events from ancient times to the 18th century, and will be taught from 5:45 to 7 on Monday and Wednesday evenings. The spring term will cover scientific happenings in the 18th, 19th, and 20th centuries.

The History of the Civil War course will be offered in the fall on Monday and Wednesday mornings from 8:45 to 10 and will cover the causative, social, economic and diplomatic factors of the War, and the consequences and effects of the conflict on American life. It will be followed in the spring by a course on the History of the South.

FOR IMMEDIATE RELEASE

August 29, 1962

Robert D. Woodward, FE 8-4995

Seven new professors have been added to the full-time staff of instruction at George Washington University for the coming school year.

They are Littleton B. Atkinson, professor of international affairs; John L. Finan, professor of psychology; Solomon Kullback, professor of statistics; Kurt L. London, professor of international affairs; Ewing L. Phillips, professor of psychology; Joseph F. Sadock Jr., professor of preventive medicine and community health, and Hiram E. Stout, professor of international affairs.

Dr. Atkinson has assumed the directorship of the University's program in international affairs at the Air University, Maxwell Air Force Base, Montgomery, Alabama. He received his bachelor's and master's degrees from Louisiana State University and his doctorate at the University of Pennsylvania.

A former part-time University faculty member, Dr. Finan is one of two new professors of psychology on the staff. After graduating from Harvard University, he received his master's degree from Duke University and his doctorate from Yale University.

Dr. Kullback, a former Army colonel, has recently served as chief of a government research and development agency, and has been a part-time professorial lecturer in statistics at the University. He holds degrees from City College of New York, Columbia University and George Washington University.

Director of the new Institute for Sino-Soviet Studies at the University will be Dr. London. He received his doctorate in international affairs at the University of Wurzburg after attending the Universities of Berlin and Heidelberg. He has taught at CCNY, Brooklyn College and the University of Denver and has held various positions of responsibility in the government. The author of several books, his works include

- 11011 -

NEW AND FORTHCOMING
2-2-2-2-2-2-2

The Seven Soviet Arts, Backgrounds of Conflict, and New Foreign Policy Is Made.

Mr. Phillips will be director of the testing and counseling center at the University. He was an assistant professor at the University from 1943 to 1952. Recently he has done clinical counseling and administrative work for the Arlington County Guidance Center, and has served as a consultant to the Arlington County School Board and as a psychologist at the National Orthopedic Rehabilitation Hospital. He received his Ph.D. at the University of Minnesota.

Dr. Sadock will direct the University Hospital Clinics. A former member of the George Washington medical faculty, Dr. Sadock returns to Washington from Stanford University, where he has served since 1949. A native of Baltimore, he earned his medical degree at Johns Hopkins University in 1935.

Dr. Stout will serve as director of the University program in international affairs at the Naval War College, Newport, Rhode Island. He has taught at St. Paul University, the University of Chicago, and most recently at Duke University. He received his doctorate at Harvard University.
